Dear Authorized Representatives and Project Directors for grants from the National Historical Publications and Records Commission (NHPRC):

I am writing to let you know that, due to the federal government shutdown, operations at the National Archives and Records Administration have been interrupted and the NHPRC staff is being furloughed.

I want to assure you that all NHPRC grant awards are fully funded; however, we will be unable to process recently submitted payment requests or any new payment requests until the National Archives receives an appropriation and we are fully operational once again. In addition, we will not be able to review narrative or financial reports or respond to other grant related questions.

Please also note that while you will still be able to access eGMS Reach, staff will remain out of the office until authorized to return and will respond to any messages, report submissions, or inquiries, at that time.

The National Archives will also post shutdown language on NARA web sites, social media, and on our facilities.

Thank you for your understanding,

Darrell Meadows
NHPRC Acting Executive Director
