## Highlights of WISER Projects for Grants Management

## Access WISER

- o Through WISDM (WISER Projects menu option)
- o <a href="https://www.rsp.wisc.edu/">https://www.rsp.wisc.edu/</a>, Electronic Tools list on the right side of the page
- o Directly: <a href="https://wiser.wisc.edu/">https://wiser.wisc.edu/</a>
- Overall Software Changes
  - o Ability to create home screen groups and pin menu options (Find Awards/Projects, AR Search, etc.)
  - o Individual searches with criteria can be pinned for recurring runs
  - O Quick Search (search for project id, name of PI, etc.)
- My Projects/My Awards
  - My Projects Expanded to also include My Awards
  - Options added to "Add All" to My Projects/My Awards
  - o Filter option at Fund, Sponsor, Dept, Investigator, Status
- Award Level Financials
  - o Financial Data can be viewed as a summary for an award (multiple projects) as well as by project
  - o Details are drillable at both levels (award level and project level)
  - o The Period dropdown for awards can be changed on both the start and end period of interest
  - Project Inclusion: Award view offers selection of projects to be included in summary (<u>can choose specific</u> projects to include/exclude from review)
  - Period Summary under Award level view allows drillable breakdown by month of budget changes, direct expenses, F&A expenses and cost share expenses. AR information is also included, but is not drillable.

## • Accounts Receivable

- o Accounts Receivable (AR) data can be viewed for any award through the new AR tab
- o Data can be filtered to include only Open AR, only Closed AR, or to include both statuses
- All columns are clickable to sort by any headings

## Documents

- o Award Documents after mid November 2018 are available through a link to Perceptive Experience
- Older Award documents will remain only as attachments in WISER
- Project Level View
  - Account codes that are not included in the F&A calculation are highlighted in yellow (use highest level detail)
  - o Calculator function allows selection of transactions for sum, count and average calculations on page
  - Transaction counts available from project view
- Accounts Receivable Search (replaces WISDM Grants Payment Activity Search)
  - Includes all accounts receivable, not just paid AR
  - o Search includes more criteria (AR status is open and/ or closed, accountant name, department ID, etc.)
  - Results can be sorted by any column heading
- Transaction Detail
  - o Use customize columns to look for data, data structure is different than WISDM
  - Application Connections on transaction detail lines from (Cost Transfer Tool & Expense Report)
- Cost Share under Award level as well as Project level (WISDM only has this under the project level)
- Calculator Feature at Project Level and on the AR tab at the Award Level
- Searches include Type assist for PI/Co-Inv and Sponsor criteria
- Future Users may see changes as requests are reviewed and prioritized
